

# Excursion: Applications of Computer Vision

Roxane Licandro - [licandro@cvl.tuwien.ac.at](mailto:licandro@cvl.tuwien.ac.at)

# Agenda

- Excursion Review
- Discussion of Drafts
- Discussion of Presentations

# Discussion Drafts

- Cite all your sources
- Do not list sources you have not cited
- Check quality of sources

According to [1] „*computer vision is the methodology...*“

LastName et al. [1] propose a feature based technique to establish correspondence in space.

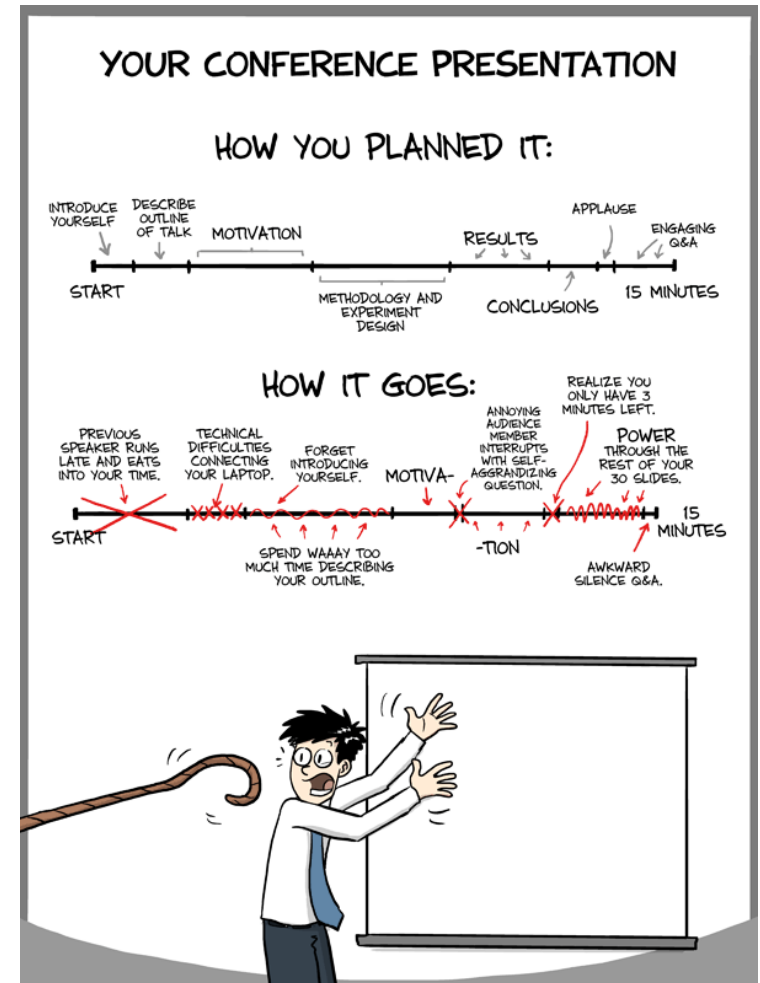

<https://www.paperrater.com/page/plagiarism-detection>

# Discussion Drafts

- Refer to every figure in the text, explain what is shown.
- Every figure has a caption, a number and, if you are not the creator, a citation.
- You can use footnotes
- Avoid long nested sentences
- Avoid „blabla“ words (always, often, many) – use precise language
- Capitalize letters of the introduced abbreviation, names

# Discussion Presentation

- Not too much text
- No complete sentences – key words
- Use images to visualise the content
- ~ 1 slide per minute

<http://www.phdcomics.com/comics.php?f=1553>

# Presentation

- 8 minutes per student, 2 min discussion
- Template (<https://cvl.tuwien.ac.at/acv-schedule-1516/> )
- Submission draft presentations to group presentation master on 18.01.2020 23:59, group submission on 19.01.2020 to [licandro@cvl.tuwien.ac.at](mailto:licandro@cvl.tuwien.ac.at)
- Submission of your final paper and presentation on 20.01.2020 after the presentations

# Schedule
