Draft and Presentation Discussion

Matthias Wödlinger - mwoedlinger@cvl.tuwien.ac.at

Agenda

- Discussion of Drafts
- Discussion of Presentations
- Discussion of Schedule

Discussion Drafts

- Cite all your sources

- Do not list sources you have not cited

- Check quality of sources (peer reviewed articles if possible)

- If you really need to cite a webpage use a time and date stamp

- No statement without proof!

Citation examples:

According to [1] *„computer vision is the methodology…"*

LastName et al. [1] propose a feature based technique to establish correspondence in space.

Discussion Drafts

- Refer to every figure in the text, explain what is shown
- Every figure needs a caption, a number and, if you are not the creator, a citation
- Avoid long nested sentences
- Skip adjectives that don't add anything („innovative", „hugely", …)
- Discuss other people's methods in present tense
- Avoid „blabla" words (always, often, many) – use precise language

Discussion Drafts

- Do not generate your report with chatGPT – it is noticable

- Consider using other services for help with phrasing like deepl.com/write or grammarly

- If I suspect your text was generated with chatGPT I will be very strict with requiring references for any statement you make

- chatGPT cannot generate references for you (it will output some but they are mostly rubbish)

Presentation

- 8 minutes per student, 2 min discussion

- Template (https://cvl.tuwien.ac.at/acv-schedule-1516/)

- Submission of your final paper and presentation on 22.01.2024 after the presentations (to mwoedlinger@cvl.tuwien.ac.at)

Discussion Presentation

- Not too much text

- No complete sentences – key words

- ~ 1 slide per minute

- Use images to visualise the content!

- Introduce the next slide
with a sentence
